

PROTOCOL NUMBER: S-K1613

PROTOCOL TITLE: EUS Features of Autoimmune Pancreatitis: The difference between the diffuse type and focal type

IRB APPROVAL DATE: April 28, 2021

IRB APPROVAL TYPE: Exempt from IRB Review

Dear Dr., Shengyu Zhang:

The Institutional Review Board (IRB) of Peking Union Medical College Hospital (PUMCH) has reviewed the above-named protocol and has determined that this study is exempt from full IRB review based on the following reason(s):

- ☐ The study only involves surveys/interviews, standard educational tests, observations of public behavior.
- ☒ The study only involves the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, and these sources are publicly available or the information is recorded by the investigator in such a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.
- ☐ The study involves taste and food quality evaluation and consumer acceptance studies.

Signature of Chairman of IRB member: Zhaohui Zhu
