Re: Double diabetes in Saudi Arabia: A retrospective descriptive study

This is in reference to your submitted proposal which has been reviewed by the appointed members of the committee through an expedited review process. Upon the recommendation of the board of review on the ethical aspects of the proposal, Research Ethics Committee is pleased to approve and granted permission to conduct your study.

Your research protocol has been documented under:

Project No. 689  
Date Approved 19 May  
Series of 2015

Kindly quote the project number indicated herein in all transactions and communications. You are advised to submit a report in relation to this research scheme to update the committee of its progress.

I trust your research scheme proves fruitful and beneficial to the PSMMC.

Best regards,

**DR. SAEED KADASAH**

Chairman, Research Ethics Committee
