Dear Professor Ettinger,

The Institutional Review Board (IRB) of Willamette University has completed its review of your proposal entitled "Proprioception in neuropathic populations" and herein notifies you of its approval as minimal risk under CFR Title 45 Part 46.102(i). This approval is valid for one (1) year from this date. Should your research extend beyond this date you will need to provide a report on the work's progress.

Please inform the IRB if you make any substantive changes to your research design that would affect risk to participants.

Keep a copy of this message for your files. A copy on letterhead is also attached. A hard copy will be delivered to your office.

Good luck with your research.

Sincerely,

Professor Peter Harmer, Ph.D., MPH., FACSM  
Chair of the Institutional Review Board  
Willamette University
