

**Zydus Research Centre, Cadila Healthcare Limited, Review Board**

1. **Title of Project: Coagonist of GLP-1 and glucagon receptors ameliorates diabetes-induced chronic kidney injury**
2. **Co-authors/presenter: Vishal J Patel, Amit A Joharapurkar, Samadhan G Kshirsagar, Brijesh K Sutariya, Maulik S Patel, Hiren M Patel, Dheerendra K Pandey, Rajesh H Bahekar, and Mukul R Jain**
3. **Proposed journal: World Journal of Diabetes**
4. **Permissions related to ethical committees involved: IAEC committee approved (ZRC/PH/BP/003/03-2K17)**
5. **Justification (pl. provide in details, use extra sheet if required)**
  - i) **To which ZRC project it is relevant: This is related to the GLP-1 glucagon coagonist project**
  - ii) **Relevancy to the project(why this work was taken up: This work was taken up to substantiate the effect of the coagonism on GLP-1 and glucagon receptors for treatment of chronic kidney damage induced by diabetes**
6. **Relevance of the publication/poster presentation/talk (what new is being proposed, how it compares to other known information available etc.): GLP-1 and glucagon coagonism is reported to be useful in obesity and diabetes, however, its effect in kidney damage is not yet studied.**
7. **Has this work already been patented?**

If Yes (pl. give details)  
If No, (is it going to be patented?)No  
If No: (pl. give reason for not patenting)This is useful information based on the tool compound. Hence, it is needed to be published for general use to scientific fraternity
