Our Ref. N° 406/17

**Subject:** Article for publication in a scientific magazine, entitled "New onset diabetes after kidney transplantation: incidence and associated factors"

**Rapporteur – Mário Miguel Rosa MD, PhD**

We hereby inform you that the above identified article deserved a favorable opinion by this Ethic Committee, at the meeting held on December 12, 2017. It complies with the ethical requirements intended for publication in a scientific journal.

The article is in accordance with the necessary ethical principles, ensuring the privacy of the participants by processing information that do not allow identification of data subjects, while ensuring the anonymity of those involved.

Best Regards

The President of the Ethics Committee of CAML

José Luis B. Ducla Soares, MD, PhD
