

**University of Cincinnati  
Institutional Animal Care and Use Committee**

**Protocol Update Approval Notification**

Principal Investigator(s): Gary E. Shull, PhD

Protocol Action: Update      Protocol #: 06-06-22-02

Protocol Title: Mouse Models for Genetic Diseases of Ion Transport

Approval Date: 6/22/12

Expiration Date: 6/22/15

- Protocols can only be approved for a three-year period. A Protocol Update must be submitted to renew the protocol. The IACUC Office recommends submitting an Update three months prior to the expiration date of the protocol.
- An Annual Progress Report must be submitted to the IACUC Office once a year for USDA covered species. The approval of the Annual Progress Report **does not** affect the expiration date of the protocol.
- Any approved modifications **will not** change the expiration date of the approved protocol.
- Any change in procedures of the approved protocol or research staff is prohibited without prior IACUC approval.
- Approval by the IACUC does not constitute approval by other regulatory committees.
