DATE: SEP 14, 2012

TO: Janio Szklaruk M.D.
Box 57

FROM: Institutional Review Board IRB5
Office of Protocol Research
Box 198

SUBJECT: Expedited Continuing Review Approval of 2011-0279

Title: Utility of Post- Gd-EOB-DTPA MR Imaging in Prediction of
Compensatory Hypertrophy of the Liver Following Portal Vein Embolization
(PVE)

The above named and numbered protocol was reviewed using the expedited review process in accordance with the Institutional Review Board (IRB) Policy for Continuing Review of Research and the federal regulations governing human subjects research [45 CFR 46.109(e) and 21 CFR 56.109(f)].

On SEP 05, 2012, the IRB chair or designee expeditedly approved the continuation of this protocol. All research related activities may continue on this protocol for another 365 days.

If you have any questions regarding this matter, please call the Office of Protocol Research at (713)792-2933 or send an email to IRB CONTINUING REVIEW@mdanderson.org.

Thank you for your cooperation.

Janio Szklaruk
