Subject: HSR Form Processed 58206, John Schoeneman Vorhies
To: <jlangner@stanford.edu>

Protocol Number: 58206 (NEW)
Review Type: HSR
Protocol Director: Vorhies
Department: Orthopaedic Surgery
Protocol Title: Generation of Aerosols During Common Orthopaedic Procedures

Thank you for your submission. On the basis of the information provided, the IRB has determined that this project does not meet the definition of human subject research as defined in federal regulations 45 CFR 46.102 or 21 CFR 50.3. No further IRB review is required. Please see your HSR application form in eProtocol for the completed determination and any additional instructions.

To do so, go to 'My Dashboard' and select 'Non-Active Protocols'. Open the protocol number in question. Click the bottom left red tab, "Print View" for a PDF of the HSR application - the HSR determination will be on page 2.

Thank you,

Manjit Gill

IRB 98 Manager
