Thank you for submitting your request for approval of this study. The IRB has administratively reviewed your application and a designated IRB member has determined that your study is exempt from further IRB review, under 45 CFR 46.101(b), Category 4, from the Federal regulations governing human research.

It is the policy of the University of Utah that all human subject research which is exempt under this section will be conducted in accordance with (1) the Belmont report (<http://ohrp.osophs.dhhs.gov/humansubjects/guidance/belmont.htm>), (2) this institution's administrative procedures to ensure valid claims of exemption, and (3) orderly accounting for such activities. All research involving human subjects must be approved or exempted by the IRB before the research is conducted.

Since this determination is not an approval, it does not expire or need renewal. This determination of exemption from continuing review only applies to the research study as submitted to the IRB and you are expected to follow the protocol as outlined. Before implementing any changes in the study, you must submit an amendment application to the IRB and secure either approval or a determination of exemption.

If you have questions about this, please contact our office at 581-3655 and we will be happy to assist you. Thank you again for submitting your proposal.
