ESPS Manuscript number: 27201

Manuscript Type: CASE CONTROL STUDY

An Interprofessional, Multiple Step Simulation Course Improves Pediatric Resident and Nursing Staff Management of Pediatric Patients with Diabetic Ketoacidosis

Larson-Williams LM, et al. Interprofessional Simulation Course Managing Pediatric DKA

Authors:

Linnea M. Larson-Williams, MD Georgia Regents University, Department of Pediatric Endocrinology

Amber Q. Youngblood, BSN, RN, Children's of Alabama

Dawn Taylor Peterson, PhD, University of Alabama School of Medicine, Department of Medical Education

J. Lynn Zinkan, MPH, BSN, RN, Children's of Alabama

Marjorie L. White, MD, MPPM, MEd, University of Alabama at Birmingham, Office of Interprofessional Simulation, Department of Pediatric Emergency Medicine

Hussein Abdul-Latif, MD, University of Alabama at Birmingham, Department of Pediatric Endocrinology

Leen Matalka, MD, University of Alabama at Birmingham, Pediatric residency

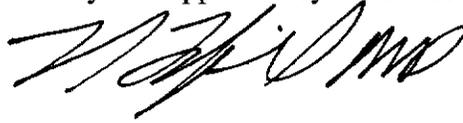

Stephen N. Epps, MD, Louisiana State University, Department of Pediatrics

Nancy M Tofil, MD, MEd, University of Alabama in Birmingham, Department of Pediatric Critical Care

Author contributions: Larson-Williams led all simulation sessions, designed the initial simulation, knowledge tests and assisted in manuscript writing and editing; Youngblood assisted with simulations, manuscript writing and editing; Peterson assisted with study design, manuscript editing; White assisted with simulation sessions, study design, manuscript editing; Abdul-Latif assisted with simulation design, knowledge tests and manuscript editing; Matalka and Epps assisted with data review and statistics and manuscript writing; Tofil was senior advisor overseeing study design, simulation session, statistical analysis and manuscript writing and editing.

Supported by a University of Alabama at Birmingham Department of Pediatrics Founders Fund Grant

Institutional review board statement: This study was approved by the ethics committee at University of Alabama at Birmingham.

A handwritten signature in black ink, appearing to be 'W. J. O. M. D.', written in a cursive style.
