|   | Company Editor-in-Chief: I have reviewed the Peer-Review                |     |
|   | Report, the full text of the manuscript, and the relevant ethics        |     |
|   | documents, all of which have met the basic publishing requirements      |     |
|   | of the World Journal of Diabetes, and the manuscript is                 |     |
|   | conditionally accepted. I have sent the manuscript to the author(s)     |     |
|   | for its revision according to the Peer-Review Report, Editorial         |     |
|   | Office's comments and the Criteria for Manuscript Revision by           |     |
|   | Authors. Please provide decomposable Figures (in which all              |     |
|   | components are movable and editable), organize them into a single       |     |
|   | PowerPoint file. Please authors are required to provide standard        |     |
|   | three-line tables, that is, only the top line, bottom line, and column  |     |
|   | line are displayed, while other table lines are hidden. The contents    |     |
|   | of each cell in the table should conform to the editing specifications, |     |
|   | and the lines of each row or column of the table should be aligned.     |     |
|   | Do not use carriage returns or spaces to replace lines or vertical      |     |
|   | lines and do not segment cell content. The title of the manuscript is   |     |
|   | too long and must be shortened to meet the requirement of the           |     |
|   | journal (Title: The title should be no more than 18 words).             |     |
| 3 | The fixed headings are copied.  | [Y] |
|   | The title concisely summarizes the main topic of the study and is       |     |
|   | not too long (no more than 18 words). Words such as 'exploration',      |     |
| 4 | 'research', 'analysis', 'observation', and 'investigation' are avoided. | [Y] |
|   | The title does not start with 'The' and does not include any Arabic     |     |
|   | numbers or uncommon abbreviations.                                      |     |
| 5 | A short running title is provided (no more than 6 words).               | [Y] |
|   |   |     |

| The authors' full family (sur)names and full/abbreviated first          |  |

| names are listed on the title page and are consistent with those        | [Y]  |
| listed in the signed BPG Copyright License Agreement form.              |  |
| The 'Author contributions' passage describes the specific               |  |
| contribution(s) made by each author. The author's names are listed      |  |
| in the following format: full family (sur)name followed by              |  |
| abbreviated first and middles names.                                    |  |
| e.g., "Wang CL and Liang L contributed equally to this work; Wang       |  |

| The 'Supported by' statement describes the source(s) of financial       |  |
| support and includes the corresponding identification number(s)         | [Y]  |
| and program ID(s) if available, and contains no spelling errors.        |  |
| The 'Corresponding author' passage provides the corresponding           |  |
| author's full first and family (sur)names, abbreviated title (e.g., MD, |  |
| PhD), affiliated institute's name and complete postal address           | [Y]  |
| (including zip code) and e-mail (written in all lowercase), and         |  |
| contains no spelling errors.  |  |
| The Manuscript Tracking information (i.e., Received, Peer review        |  |
| started, First decision, Revised, Accepted, Article in press, and       |  |
| Published online) are provided along with the corresponding editor      | [Y]  |
| and date for each item, and contain no spelling errors.                 |  |
| The Abstract section is formatted according to the article-specific     |  |
| style (structured vs unstructured) and word count thresholds, as        |  |

|     | figures clearly describes the trends, meaning, and inferences.                                |     |
|     | Results described in textual form are accurate, concise and clear.                            |     |
| 18  | Statistical symbols are accurate. Statistical significance is expressed                       |     |
|     | as ${}^{a}P < 0.05$ , ${}^{b}P < 0.01$ ( $P > 0.05$ usually does not need to be denoted).     |     |
|     | If there are other series of <i>P</i> values, $^{c}P < 0.05$ and $^{d}P < 0.01$ are used,     | [Y] |
|     | and a third series of <i>P</i> values is expressed as ${}^{e}P < 0.05$ and ${}^{f}P < 0.01$ . |     |

|          | order of the first appearance of a source in the text. For citations                 |       |
|          | where the author's name is indicated in the text, a superscript                      | [Y]   |
|          | number should be placed following the name ( <i>i.e.,</i> "Pang <i>et al</i> "). For |       |
|          | citations where no author is indicated, a superscript number should                  |       |
| 22       | be placed at the end of the sentence. Respective examples are: "Ma <sup>[1]</sup>    |       |
|          | reported", "Pan et al <sup>[2-5]</sup> indicated"; "PCR has a high                   |       |
|          | sensitivity <sup>[6,9]</sup> ." No superscript numbers are used when the             |       |
|          | reference number is described in the text; for example, "The                         |       |
|          | experimental method used has been described in reference [8]." The                   |       |
|          | style of reference citations in tables is the same as that in the text               |       |
|          | ( <i>e.g.</i> , Pan <i>et al</i> <sup>[2-5]</sup> , please see reference [8]).       |       |
