	General Information of the Manuscript	
	Name of journal: World Journal of Diabetes	
	Manuscript NO.: 76781	
	Column: Review	
	Title: Non-alcoholic fatty liver disease and diabetes	
1	Authors: Maria Irene Bellini, Irene Urciuoli, Giovanni Del Gaudio,	[Y]
	Giorgia Polti, Giovanni Iannetti, Elena Gangitano, Eleonora Lori,	
	Carla Lubrano, Vito Cantisani, Salvatore Sorrenti and Vito	
	D'Andrea	
	Reviewer code: 02439547, 05225141, 05645050, and 03435085	
	First decision: 2022-04-25 22:04	

	Editorial Office's Comments	
	Science Editor: Remind Revision at 2022-05-03 08:18	
	Company Editor-in-Chief: : I have reviewed the Peer-Review	
	Report, full text of the manuscript, and the relevant ethics	
	documents, all of which have met the basic publishing requirements	
	of the World Journal of Diabetes, and the manuscript is	
	conditionally accepted. I have sent the manuscript to the author(s)	
	for its revision according to the Peer-Review Report, Editorial	
	Office's comments and the Criteria for Manuscript Revision by	
	Authors. Please be sure to use Reference Citation Analysis (RCA)	
2	when revising the manuscript. RCA is an artificial intelligence	[Y]
	technology-based open multidisciplinary citation analysis database.	
	For details on the RCA, please visit the following web site:	
	https://www.referencecitationanalysis.com/. Please authors are	
	required to provide standard three-line tables, that is, only the top	
	line, bottom line, and column line are displayed, while other table	
	lines are hidden. The contents of each cell in the table should	
	conform to the editing specifications, and the lines of each row or	
	column of the table should be aligned. Do not use carriage returns	
	or spaces to replace lines or vertical lines and do not segment cell	
	content.	
3	The fixed headings are copied.	[Y]
	The title concisely summarizes the main topic of the study and is	
4	not too long (no more than 18 words). Words such as 'exploration',	[Y]
	'research', 'analysis', 'observation', and 'investigation' are avoided.	[*]
	The title does not start with 'The' and does not include any Arabic	

	numbers or uncommon abbreviations.	
5	A short running title is provided (no more than 6 words).	[Y]
	The authors' full family (sur)names and full/abbreviated first	
6	names are listed on the title page and are consistent with those	[Y]
	listed in the signed BPG Copyright License Agreement form.	
	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
	abbreviated first and middles names.	
	e.g., "Wang CL and Liang L contributed equally to this work; Wang	
7	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	[Y]
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and	
	Wang CL, Liang L and Fu JF wrote the manuscript. All authors	
	have read and approve the final manuscript."	
	The 'Supported by' statement describes the source(s) of financial	
8	support and includes the corresponding identification number(s)	[N]
	and program ID(s) if available, and contains no spelling errors.	
	The 'Corresponding author' passage provides the corresponding	
	author's full first and family (sur)names, abbreviated title (e.g., MD,	
9	PhD), affiliated institute's name and complete postal address	[Y]
	(including zip code) and e-mail (written in all lowercase), and	
	contains no spelling errors.	
	The Manuscript Tracking information (<i>i.e.</i> , Received, Peer review	
	started, First decision, Revised, Accepted, Article in press, and	
10	Published online) are provided along with the corresponding editor	[Y]
	and date for each item, and contain no spelling errors.	
	The Abstract section is formatted according to the article-specific	
11	style (structured <i>vs</i> unstructured) and word count thresholds, as	[Y]

	follows:	
	Commentary, Frontier, Diagnostic Advances, Medical Ethics,	
	Minireview, Review, Therapeutics Advances, and Topic Highlight:	
	Non-structured abstract that is no less than 200 words.	
	Field of Vision, Case Report and Letter to the Editor:	
	Non-structured abstract that is no less than 150 words.	
	Research articles: Structured abstract with subsections for AIM (no	
	more than 20 words); METHODS (no less than 80 words); RESULTS	
	(no less than 120 words); and CONCLUSION (no more than 26	
	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
14	study that outlines the most innovative and important arguments	[Y]
17	and core contents of the paper and will serve to effectively attract	[*]
	readers.	

15	The 'INTRODUCTION' section clearly describes the relevant background information for the study. Only the most relevant and current (within the past 5 years) literature is cited, with the exception of rare instances of seminal literature citations. All technical terms and/or abbreviations are explained and/or defined, with the full name of abbreviations given upon first appearance in the text and the abbreviation presented in parentheses [<i>i.e.</i> ,	[Y]
	"computed tomography (CT)"]. First-person pronouns (<i>e.g.</i> , 'T', 'we') are used appropriately to clearly indicate the work performed by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is presented carefully.	
16	The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.	[N]
17	The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.	[N]
18	Statistical symbols are accurate. Statistical significance is expressed as ${}^{a}P < 0.05$, ${}^{b}P < 0.01$ ($P > 0.05$ usually does not need to be denoted). If there are other series of P values, ${}^{c}P < 0.05$ and ${}^{d}P < 0.01$ are used, and a third series of P values is expressed as ${}^{e}P < 0.05$ and ${}^{t}P < 0.01$. Statistical data is expressed as mean ± SD or mean ± SE.	[N]

	The 'DISCUSSION' section (1) describes the main purpose and	
19	hypothesis of the study; (2) summarizes the most important results;	
	(3) illustrates and explains the results (but does not simply repeat	
	the data) and draws conclusions or inferences based on the results;	L N L I
	(4) points out the limitations of the study and their impact on the	[N]
	results, as well as proposes further advice on future research	
	topic(s) or direction(s); and (5) describes the theoretical significance	
	and practical value of the findings.	
	The 'ACKNOWLEDGEMENTS' section expresses gratitude to any	
	individuals or organizations for technical support (i.e., providing	
	instrumentation, equipment or experimental materials, and/or	
20	assistance in experimental work), non-technical services (i.e., useful	[N]
	inspiration, suggestions, guidance, or review), and/or any other	
	auxiliary work.	
21	The 'ARTICLE HIGHLIGHTS' section provides comments for	L N L I
	original articles in accordance with the specified format.	[N]
	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	
	number should be placed following the name (<i>i.e.</i> , "Pang <i>et al</i> "). For	
	citations where no author is indicated, a superscript number should	
	be placed at the end of the sentence. Respective examples are: "Ma ^[1]	[Y]
	reported", "Pan et al ^[2-5] indicated"; "PCR has a high	
	sensitivity ^[6,9] ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	(e.g., Pan et al ^[2-5] , please see reference [8]).	
•		

Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version.[Y]24The number of cited references is appropriate for the article type, as follows: Commentary; no less than 50; Review; no less than 100; Article; no less than 30/26; Case Report and Letter to the Editor; no less than 1.[Y]25The ethics-related statements are provided in accordance with the manuscript type (e.g., P-Reviewer: Hugot D S-Editor: Wang JL).[Y]26The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (e.g., +, -, ×, +; *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1			
23references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version.[Y]24The number of cited references is appropriate for the article type, as follows: Commentary: no less than 50; Review; no less than 100; Article: no less than 30/26; Case Report and Letter to the Editor; no less than 1.[Y]25The ethics-related statements are provided in accordance with the manuscript type (e.g., Manuscript NoInstitutional review board statement, Manuscript NoAnimal care and use statement, etc.).[Y]26The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (e.g., +, -, ×, +, *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1[Y]		Journal references have been verified to ensure that there are no

	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; <i>e.g.</i> , 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
	Approved grant application form(s) or funding agency copy of any	
	approval document(s) (file name: Manuscript NoGrant application	
	form(s)); (2) Biostatistics review certificate (file name: Manuscript	
	NoBiostatistics statement); (3) Conflict-of-interest statement (file	
	name: Manuscript NoConflict-of-interest statement); (4) Clinical	
	trial registration statement (file name: Manuscript NoClinical trial	
32	registration statement); (5) Institutional review board approval form	[Y]
	or document (file name: Manuscript NoInstitutional review board	
	statement); (6) Institutional animal care and use committee	
	approval form or document (file name: Manuscript	
	NoInstitutional animal care and use committee statement), and (7)	
	Signed informed consent form(s) or document(s) (file name:	
	Manuscript NoInformed consent statement).	
33	All authors signed the BPG Copyright license agreement form (file	
	name: Manuscript NoCopyright license agreement; e.g.,	[Y]
	870-Copyright license agreement).	
24	The language certificate provided by authors who are non-native	[]/]
34	speakers of English meets the BPG requirements (file name:	[Y]

	Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).	
	The photos licensed in the Agreement for Use of Personal Photos	
35	are consistent with those in the paper (file name: Manuscript	[N]
	NoAgreement for use of personal photos; e.g., 870-Agreement for	
	use of personal photos).	
	This document (Checklist of Responsibilities for Scientific Editors)	
36	has been saved under the file name: manuscript NoScientific	[Y]
	editor work list (e.g., 870-Scientific editor work list).	
	A CrossCheck investigation (an effective tool for detecting unoriginal	
	content, enabling our editors to preserve the journal's integrity and	
	the authors' copyright) has been performed for the manuscript via	
	the website: http://www.ithenticate.com/. The results document	
37	contains the following information for the manuscript: "Name of	
	journal", "Manuscript No.", "Columns", "Title" and "Author list".	[Y]
	The Figure of the <i>CrossCheck</i> results is saved in JPEG format (.jpg) at	
	1440 \times 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has	
	been saved under the file name: manuscript No CrossCheck report	
	(e.g., 870-CrossCheck report). The Google searches have also been	
	performed to further ensure publication of original content.	
	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	
38	1.5 line spacing.	[Y]
	The primary responsibilities of our scientific editors include carefull	y checking the
Responsibilities of scientific editors	entire manuscript and all accompanying materials for: (1) error	rs in spelling.
		1 0
	grammar, punctuation and wording; (2) suitability of tables, figures, figure data and	
	legends; (3) accurate and appropriate presentation of symbols (<i>e.g.</i> +,	-, ×, ÷, %, *) in
	tables and figures; and (4) complete and comprehensive revision of t	he manuscript
	according to the reviewers' comments.
