Dear Emma,

I am pleased to confirm the offer of an award of an Oxford NIHR Biomedical Research Centre Clinical Research Career Development Fellowship to enable you to progress with your research here at Oxford. The award available is to cover 50% of your salary (0.5FTE) on the E64 pay scale for two years from an agreed date in 2017. As discussed this funding can be used to supplement your 0.5 FTE clinical training post to create a locally funded honorary clinical lecturer post. An application to for the title 'Honorary Clinical Lecturer' is underway.

Acknowledgement of BRC support in publications is a contractual obligation of the award made by the NIHR to support the BRC partnership. All publications by BRC-supported or BRC-affiliated investigators that report clinical/translational work directly or indirectly supported by the BRC should include clear acknowledgement of BRC support. Acknowledgement of BRC support should be made by including the phrase **"Supported by the NIHR Biomedical Research Centre, based at Oxford University Hospitals Trust, Oxford. The views expressed are those of the author(s) and not necessarily those of the NHS, the NIHR or the Department of Health."** A PDF copy of the publication should be sent to Dr Denise Best ([denise.best@medsci.ox.ac.uk](mailto:denise.best@medsci.ox.ac.uk)). Please remember that NIHR do not fund any animal work.

If you wish to accept this offer, please print and hand-sign the attached Appendix 1: Confirmation of Acceptance and return this to me by one of the following means: scanned and sent by email, post, fax, or by hand.

Congratulations on being successful in a very competitive awards round and I wish you every success with your research and subsequent funding applications.

Yours sincerely

Denise Best

**Appendix 1: Confirmation of Acceptance**

**Joint Oxford Biomedical Research Centre &  
Oxford University Clinical Academic Graduate School  
Clinical Research Training Fellowship Award**
