24 July 2015

Dr Andrew Kwek Boon Eu  
Gastroenterology and Hepatology

Dear Dr Kwek,

**CGH RESEARCH GRANT 2015 (1<sup>ST</sup> GRANT CALL)**

We are pleased to inform that your CGH Research Grant application for **"Benefits Of Premedication With Small Volume Simethicone Solution Before Diagnostic Gastroscopy: A Randomized Endoscopist-Blinded Prospective Study"** has been approved.

The fund allocated for this project is \$6,592.52 over 2 years ending 30 September 2017. All funds must be utilized in accordance with the approved budget allocation enclosed. Please note that as the Principal Investigator, you are responsible to monitor the fund utilization to avoid any cost over runs.

The internal order number for this project is 12201011, to which you should charge your expenses. The billing account code for the hospital research grant is **ZCHOENFU**. Study expenditure must be in line with all applicable policies and procedures, including the procurement policy and manpower hiring procedures, if applicable.

Enclosed is the Standard Guidelines to Principal Investigator for Investigator-initiated Study. Kindly adhere to the guidelines outlined for the conduct of your study. Please acknowledge your acceptance of the guidelines by returning a signed copy to CTRU (Attn: Ms Tan Ai Wyn). You are expected to use your best efforts to achieve the milestones, as stipulated in your application.

The hospital is interested in the progress and outcome of your project. You are required to submit half-yearly and annual progress reports to the committee until the completion of this project. You are encouraged to present the project findings at the annual CGH Scientific Meeting.

Thank you.

Yours sincerely

Dr Tiah Ling  
Head, Research

cc: Dr Jagadesan Raghuram (Deputy Chairman, Medical Board (Medical))  
Ms Joyce Sim, Finance  
Ms Ler Sock Hoon, Supply Chain Management
