SPECIFIC COMMENTS TO AUTHORS

A rare case of trauma with high mortality is when doctors are unaware of the underlying symptom in the patient. Excellent work and excellent results on that patient. 1. Please make the introduction and conclusion in the abstract concise 2. Please describe in detail the mechanism of the motor vehicle collision that occurs in this patient to ensure the acceleration and deceleration mechanism which is the cause of the aortic pseudoaneurysm in this patient. 3. Did the patient have a ct scan for the thoracoabdominal area at the time of the accident 3 months ago? This is a screening for trauma patients, especially patients with small bowel injuries and pelvic trauma. 4. Please be consistent whether the patient follow-up that the author did for 2 or 4 years? There is a difference in the statement in "OUTCOME AND FOLLOW-UP" and the last sentence in "DISCUSSION".

SPECIFIC COMMENTS TO AUTHORS

It is an interesting manuscript. Authors succeed to present their data in a clear way adding information to the existing literature. Therefore, I have no corrections to do and the manuscript can be published unaltered.
