SPECIFIC COMMENTS TO AUTHORS

The paper is really interesting. Insulinoma after LSG is a rare condition, and as I know this is the first report of this complication. The authors showed us a complete story to diagnose and treat this rare situation. The potential mechanism was also described. I am intersted in the number of LSG in your centre till now, and an estimated incidence of insulinoma after LSG would be encouraged. Thank you and congratuation to you.
