SPECIFIC COMMENTS TO AUTHORS

The authors show the case of PTC and UPS. The case presentation is interesting, however, I have some concerns to be discussed. 1. Which malignancy is first, PTC or UPS? 2. Please provide details of the lung lesions. 3. Have you done genetic testing?

SPECIFIC COMMENTS TO AUTHORS

"Discussion section" is too long. Therefore it might be revised. In this section, the authors wrote "Riti described", or "Nicola report". In normal, the last name of the investigator cited must be used, and Nikola must be replaced by Nikola et al. I think Figure 7 is unnecessary.
