## **SPECIFIC COMMENTS TO AUTHORS**

change the title of the study from coronavirus disease 2019 as there is no coronavirus disease 2019 as labeled it would be better to change it to COVID-19 or SARS CoV-2. Use one thing in reference as DOI or doi, There is no space in between the date of publication, volume, and page number remove it.

## **SPECIFIC COMMENTS TO AUTHORS**

The work shows an interesting relationship between COVID-19 and heart rhythm disturbances and highlights the importance of monitoring in young patients, such as the case of a 32-year-old woman. The work presents a correct structure with a coherent case discussion. However, the authors could consider improving the presentation of the figures, pointing out the most relevant elements in the electrocardiogram, and further developing the information in the figure captions.

#### SPECIFIC COMMENTS TO AUTHORS

1. The manuscript focus on Junctional bradycardia in a patient with coronavirus disease 2019: A case report, after checked the references in Pubmed, novel and forward-looking.
2. If you do not research on the incidence rate along with cardiac arrhythmias, how can you make the conclusion about that the on the association between cardiac arrhythmias and the systemic inflammatory response?
3. Do not understand the “she developed junctional bradycardia while being hemodynamically stable”, what is hemodynamically stable?
4. The Figures need perfect.
5. The English need much more polish.
