Well written, good focused on Gardnerella vaginalis bloodstream infection. Interesting case report for researchers. The authors can add the studies below as a references to increase the value of content in discussion section. Sarier M, Sepin N, Guler H, et al. #### **SPECIFIC COMMENTS TO AUTHORS**

An interesting case report. However, I would suggest to italicize the scientific names. And also suggest to develop a timeline using a image or a table. Explain about penicillin hypersensitivity and how it differ between piperacillin and cefoperazone. Explain why dose (cef-sul) was escalated?
