SPECIFIC COMMENTS TO AUTHORS

Conclusions should be mentioned at the end of the manuscript, not only in abstract. In the discussion section, the authors should mention the strenghts and limits of the study. Also, in the discussion section, authors should mention postoperative complications after gastric surgery, including anastomotic leakage (cite Radulescu D, Baleanu VD, Padureanu V, Radulescu PM, Bordu S, Patrascu S, Socea B, Bacalbasa N, Surlin MV, Georgescu I, Georgescu EF. Neutrophil/Lymphocyte Ratio as Predictor of Anastomotic Leak after Gastric Cancer Surgery. Diagnostics (Basel). 2020 Oct 9;10(10):799. doi: 10.3390/diagnostics10100799).
