SPECIFIC COMMENTS TO AUTHORS

The case study: (Massive Low-Grade Myxoid Liposarcoma of the Floor of Mouth: case report and review of literature) presents a very important and interesting study of this very rare case in the floor of mouth, yet there few points to be addressed before publication - " It therefore remains unclear whether the present case had the fusion gene".Page7, Line169, delete this sentence. - Figure 3: lens magnification should be mentioned in the legend.

SPECIFIC COMMENTS TO AUTHORS

The case report is good, and adds meaningfully to literature. However, much refinements need to be done, including English refinements. Implications of the Clinical Case report needs improvements.
