SPECIFIC COMMENTS TO AUTHORS

1 Title. The title reflects the subject of the case report. 2 Abstract. The abstract summarizes the the case report. 3 Key words. The key words reflect the case report. 4 Background. The manuscript adequately describes the background. 5 Methods. The methods are well described. 6 Results. The case describes the results of this manuscripts 7 Discussion. The discussion highlight the rare cases reported in this report 8 There are good figures and illustrations 9 Biostatistics. No biostatistics needed in this case report 10 Units. The correct SI units were used 11 References. References are adequate (indeed a little too much for a case report), please try and reduce 12 The manuscript, particularly the part presenting case has been written as a patient case note and the results of laboratory test which were all normal were detail. The case cab be written out as a report and the laboratory points which were normal could be indicated as that without clustering several figures in one sentence. 13 Research methods and reporting. Authors prepared their manuscripts using (1) CARE Checklist (2013) - Case report. 14 Ethics statements. Consent form signed and included in submission Authors present a case report describing a rare case of Solitary hyoid plasmacytoma and Unicentric Castleman's disease. The authors describe the clinical presentation and laboratory finding they used in arriving at the diagnosis. The describe cases reported in literature and look at genetic sequences how imaging may be used in the management. The combination of these 2 conditions is rare with few reports in literature adding to the body of knowledge. The authors used so many references (over 60) which they may consider reducing for a case report. Again the authors reported figures for several normal test which do not directly affect the diagnosis but were all

normal. The author may consider mentioning that these were all normal without mentioning the figures. This will help make it easy to read.

SPECIFIC COMMENTS TO AUTHORS

This case report dealt with rare case of solitary hyoid plasmacytoma with unicentric Castleman disease which is infrequent. Manuscript title, abstract, methods, results, tables, conclusions and key words are appropriate. The quality of the written English is good for scientific publication.
