SPECIFIC COMMENTS TO AUTHORS

Authors provided a well-written manuscript on the use of Tacrolimus in the treatment of recurring Chronic inflammatory demyelinating polyradiculoneuropathy (CIDP) monitored by the overall neuropathy limitation scale (ONLS). Nerve conduction velocities before and 1 year after treatment were also recorded to evaluate the efficacy of Tacrolimus in both patients. This manuscript is well-structured and contained no major grammatical errors. Overall, this manuscript is ready for publication.

SPECIFIC COMMENTS TO AUTHORS

The article is presented in a suitable manner for this kind of study. Sufficient detail is provided and the discussions are based on actual facts and figures. The conclusion is supported by the data, and all the references cited are relevant and adequate. My assessment is that the overall quality of this article is excellent and should be accepted for publishing.
