SPECIFIC COMMENTS TO AUTHORS

In this case report is described a rare case of abdominal PM. The authors have been complete in the text. I have few comments. Page 1 Line 17: incidence is missing. Reference are in the wrong order, looks like reference 4,5 come before reference 3 . Page 2 Line 51: "as far as we know and Page 8 Line 178 "Page 8 Line 178 "To the best of our knowledge Did the authors perform a literature review and if so, "as far as we know and To the best of our knowledge " should be changed into " after a literature review, the database (PUBMED? MEDLINE?) should be mentioned too and also the keywords that were used for the review.
