

## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Clinical Cases*

**Manuscript NO:** 72096

**Title:** Prognostic value of neutrophil/lymphocyte, platelet/lymphocyte, lymphocyte/monocyte ratios and Glasgow prognostic score in osteosarcoma patients: a meta-analysis

**Provenance and peer review:** Unsolicited Manuscript; Externally peer reviewed

**Peer-review model:** Single blind

**Reviewer's code:** 00503563

**Position:** Editorial Board

**Academic degree:** MD, PhD

**Professional title:** Staff Physician

**Reviewer's Country/Territory:** Japan

**Author's Country/Territory:** China

**Manuscript submission date:** 2021-10-04

**Reviewer chosen by:** AI Technique

**Reviewer accepted review:** 2021-10-20 23:22

**Reviewer performed review:** 2021-10-22 07:42

**Review time:** 1 Day and 8 Hours

### **SPECIFIC COMMENTS TO AUTHORS**

The authors demonstrated the prognostic impact of neutrophil/lymphocyte ratio (NLR) and Glasgow prognostic score (GPS) in patients with osteosarcoma. There are some comments. Comments 1. The authors assessed other blood markers also, such as platelet/lymphocyte and lymphocyte/monocyte ratios, in the present study. However, these blood markers were significantly correlated with prognosis. How do the authors discuss about these results? 2. In this study, NLR and GPS have the clinical utility for predicting prognosis in patients with osteosarcoma. The authors should indicate the future perspective of NLR and GPS in the clinical management of patients with osteosarcoma.

### **SPECIFIC COMMENTS TO AUTHORS**

In the introductory part, authors could mention another roles of neutrophil/lymphocyte ratio, like: Radulescu D, Baleanu VD, Padureanu V, Radulescu PM, Bordu S, Patrascu S, Socea B, Bacalbasa N, Surlin MV, Georgescu I, Georgescu EF. Neutrophil/Lymphocyte Ratio as Predictor of Anastomotic Leak after Gastric Cancer Surgery. *Diagnostics* (Basel). 2020 Oct 9;10(10):799. doi: 10.3390/diagnostics10100799. The conclusions must be more specific and concise.
