SPECIFIC COMMENTS TO AUTHORS

Dear editors! The authors in their manuscript "Late presentation of duval tears: to case reports and literature review" outlined their experience of successfully resolving the situation of violation of the integrity of the spinal cord membranes. The manuscript also reflects current data on the pathogenesis of this condition, the therapeutic and diagnostic approach and methods of prevention in the postoperative period. The title of the manuscript, abstract, keywords correspond to the content of the manuscript. The table and figures are informative, designed in the appropriate form. The main points of the CARE Checklist-2016 are reflected. References of the literature are relevant and designed correctly. The manuscript does not require significant corrections.
