**SPECIFIC COMMENTS TO AUTHORS**

Please make the following changes: 1. The title of the paper should be changed to be more appealing and in line with the purpose of the current study. 2. In the results section of the study abstract, the most important findings of the current study should be highlighted without exaggeration. 3. Devoting the final paragraph of the study's introduction to highlighting the research problem and how to solve it within the framework of the current study's objective. 4. What are the current study's future directions? I hope to work on this direction in the current study, highlighting the study's strengths as well as the limitations mentioned in the last paragraph of the discussion section. 5. Rewrite the conclusion in a more orderly and focused manner on whether or not the current study achieves its objectives. 6. Some references are out of date after 2015, which necessitates updating them or excluding them and replacing them with what is new. 7. Is the percentage of plagiarism and self citation from references within the parameters set by the journal's policy? 8. Are the statistical graphics in the current study the work of the researcher/researchers, or do they come from somewhere else? Please elaborate. If it comes from another source, the property rights and approval of the third
