

PEER-REVIEW REPORT

Name of journal: *World Journal of Clinical Cases*

Manuscript NO: 85106

Title: Application experience and research progress of different emerging technologies in plastic surgery

Provenance and peer review: Unsolicited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 06140488

Position: Peer Reviewer

Academic degree: MD

Professional title: Doctor

Reviewer's Country/Territory: Germany

Author's Country/Territory: China

Manuscript submission date: 2023-04-19

Reviewer chosen by: AI Technique

Reviewer accepted review: 2023-04-23 00:41

Reviewer performed review: 2023-04-24 07:53

Review time: 1 Day and 7 Hours

SPECIFIC COMMENTS TO AUTHORS

This is an interesting minor review of the research progress of different emerging technologies in plastic surgery. In this study, the authors summarize the application status of the three technologies in plastic surgery, and summarizes prospects for future development. The manuscript is well structured. References are updated. A minor editing is required before acceptance.

SPECIFIC COMMENTS TO AUTHORS

In this study, the authors reviewed the application of different emerging technologies in plastic surgery. This study provided a better understanding of the current status and problems in the application of these technologies in plastic surgery, and to promote their wider application and generate more innovative technologies. The figures should be updated, and the background of the figures should be removed.
