SPECIFIC COMMENTS TO AUTHORS

The article is well written with an informative Introduction and then a nice case presentation follows, discussing clinical picture and the neurological status, flowing by the diagnostics and treatment. Overall, the paper is well written, suitable for publication and adds new knowledge to his area. Was the patient discharged with antiepileptic therapy, beside a corticosteroid? How frequent is the follow up? Any anticipations for the future? Overall, I recommend the article for publication in its present form.
