SPECIFIC COMMENTS TO AUTHORS

Dear Authors, 1. Excellent case-report by the authors and a well managed case. 2. Were both the sugeries done on the same day ? what were the findings of other eye ?
3. Why the culture and antibiotic sensitivity not done during every vitreous - tapping ?
As there were multiple recurrences and non - response to conventional intra -vitreous antibiotics?
4. Add one para regarding antibiotic - resistance in current scenario and it's prevention. Thanks
