SPECIFIC COMMENTS TO AUTHORS

It was a nicely written article. It would be better if you provide recommendation for further research and add a conclusion section. If you can add few other references mentioning interval between ingestion and starting of GL, it would be better.

SPECIFIC COMMENTS TO AUTHORS

Dear author, thank you for sharing your research. It is a bold and fascinating endeavor, still in its early stages, that deserves to be expanded with new cases and substances. I believe that within the limitations of your study, one must consider the varying absorption times of substances at the gastric level. Regards
