## SPECIFIC COMMENTS TO AUTHORS

This review article on Endoscopic transluminal drainage and necrosectomy for infected necrotizing pancreatitis is interesting. There are 8 review articles available in the pubmed database. I would appreciate your work. This work is technically sound. Authors have reached definite outcomes. The title reflects the main focus of the manuscript. The abstract summarizes and reflects the work described in the manuscript. A core tip is given which justifies the need for this work. The manuscript describes the background, present status, and significance of the work. The manuscript summarizes the research trends adequately and appropriately, highlighting the key points concisely, clearly, and logically. This work has been tailored with available literature. The manuscript cites appropriately the latest, important and authoritative references in the introduction and discussion sections. The manuscript is well, concisely, and coherently organized and presented and the style, language, and grammar are accurate and appropriate. The authors prepared the manuscript according to the appropriate research methods and reporting. I appreciate your work which would be greatly useful in the mangement of infected necrotizing pancreatitis.
