COMMENTS TO AUTHORS

i appreciated all of the authors for contributing the literature, Cd in appendix is a rare condition and whenever it is encountered, the surgeon must know what to do and be aware of its prognosis. this paper will lead surgeons to this condition

COMMENTS TO AUTHORS

The content of this article is very interesting. However, authors have a serious drawback. The diagnosis of CD is confirmed by clinical evaluation and a combination of endoscopic, histological and radiological investigations. Authors diagnosed CD by only histological findings and didn’t perform colonoscopy or small bowel series or small bowel enema. If authors diagnose CD limited to the appendix, they should perform at least colonoscopy.
