COMMENTS TO AUTHORS

Very interesting case reports. It is worth to publish in this journal. However I have a few comments.
 Comment 1: Please clarify the abbreviation of GBS in Page 6
 Comment 2: For case 1, how about the physical examination of the upper extremity?
 Comment 3: Please clarify mild proximal lower extremity weakness. It would be better if report in grading of Manual Muscle Testing grading system.
 Comment 4: How about the Aminoff-Logue scale for 2 patients both prior and post endovascular treatment
