COMMENTS TO AUTHORS

This review described the tumoral calcinosis which is a rare condition characterized by calcium deposition in the soft tissue of periarticular location. This reviewer thinks that this article is well written. Specific comments are described below. 1. This reviewer was not able to find any articles by the authors in the references. Have the authors worked on this topic previously? Why did the authors choose this topic to write a review? 2. To better understand them, it would be better to add several schematic figures describing etiology, pathogenesis, diagnosis, and treatment.
