COMMENTS TO AUTHORS

The paper is generally well-organized and presented. But it should be shortened. My opinions are as follows: 1. The first sentence of introduction section should be corrected as "Bacillus anthracis ... commonly found in soil of endemic areas" 2. Recently, another type of anthrax infection has been identified in heroin-injecting drug users in Europe. The term injectional anthrax was then coined to describe this new mode of infection. This new type of infection should be explained in the paper.

COMMENTS TO AUTHORS

Well written manuscript. Some minor grammatical errors are found throughout the paper.
