COMMENTS TO AUTHORS

fairly well written description of rare pathology, alongside pertinent literature review. thank you. please don't forget to include indefinite and definite articles in your sentences. e.g. the stomach rather than just stomach. there are many examples of this during the text.

COMMENTS TO AUTHORS

Dear Author I read carefully your case report. My comment as below: This case report generally well written. Two studies have recently been published on unusual histopathologic findings of appendix specimens. In my opinion, it is appropriate to benefit from this work. I-Unusual histopathological findings in appendectomy specimens from patients with suspected acute appendicitis. World J Gastroenterol. 2013 Jul 7;19(25):4015-22. doi: 10.3748/wjg.v19.i25.4015. II-Unusual histopathological findings in appendectomy specimens: a retrospective analysis and literature review. World J Gastroenterol. 2011 Apr 21;17(15):1961-70. doi: 10.3748/wjg.v17.i15.1961.
