### COMMENTS TO AUTHORS

In this detailed and demonstrative "case report" , Kute VB et al reported the excellent experience made using the combination of kidney paired donation with desensitization in 3 hypersensitive receptors. The authors highlight how this new technique can be a promising alternative opportunity to increase the living donor kidney transplantation It is also interesting the different aspects of the transplant program in India commented by the authors. Finally this experience also mentioned as the first of its kind in India is of interest in its publication.
