## COMMENTS TO AUTHORS

The authors describe the successful use of second generation Amplatzer vascular plug in combination with coil embolization for obliteration of high flow renal arteriovenous fistula.

## COMMENTS TO AUTHORS

**General comments** This report described an interesting and rare case of an idiopathic renal arteriovenous (AV) fistula in that update therapeutic strategy is well described. The paper is well written and the results are potentially useful when considering the diagnosis and treatment of a patient with renal AV fistula. **Specific comments** Case report section: 1st paragraph, last sentence: please change "β"-type to "b"-type. Case report section: Last paragraph: How was the HF improvement? Please give changes in HF-related physical exam and b-type natriuretic peptide after therapeutic procedure. Fig 1B: Appearance of "black arrows" in Fig 1B is unclear- please print "arrows" distinctly.
