COMMENTS TO AUTHORS

This is an interesting case that deserve to be publish in the journal. However, the manuscript needs some work to be suitable for publication.

1. Could you please indicate the year when the patient was treatment for hepatitis C and the outcome? Also the stage of liver fibrosis?
2. The chronology of the case is not clear
3. I suggest to improve the following sections:
 - a. Discussion section at the present form is too long
 - b. Author need to take out some figures. They have to many
 - c. The number of references are too many
