### COMMENTS TO AUTHORS

1.This is an interesting case about chronic obstructive pancreatitis with pancreatic duct stricture successfully treated by endoscopic ultrasound-guided pancreaticogastrostomy using a 10 mm in diameter fully covered metallic stent. 2. The patient should be followed with serum tumor markers and CT in case of pancreatic tumor.

### COMMENTS TO AUTHORS

The technique described in the manuscript is not novel and has already been studied in larger number of patients. Secondly, the manuscript requires great deal of language polishing for it to be publishable.
