COMMENTS TO AUTHORS

Interesting paper suitable for publication after some minor revision: Language will need some polishing

COMMENTS TO AUTHORS

In this manuscript, Macedo et al introduced the campaign to disseminate hepatitis knowledge for hepatitis control in Portugal. This is interesting. Yet minor concerns existed and should be addressed: 1. Language is acceptable but small defects existed and can be polished and improved further. 2. A sketch roadmap of the campaign adopted for the control of hepatitis B and C in Portugal will help the reader understand this paper better.
