literature review ". (Manuscript NO: 41346 ) and my recommendations are as follows. Title: It is accurately reflects the major topic and contents of the study. Abstract: Adequate, summarizing the topic. Case report: Case has been presented in detail. Topics has been discussed with all aspects. References: References are appropriate and updated. Figures are reflects the major findings of the study, and they are appropriately presented. This study is clearly presented . It is crucial that the author point out to this rarely case report. Also, this manuscript gives additional new knowledge to the literature. I think that this manuscript is suitable and worth to be published in the World Journal of Clinical Cases.
