SPECIFIC COMMENTS TO AUTHORS

Dear authors, I have some important queries for you based on your article: Please mention specifically why did the patient have bilateral stents? Did he have bilateral stones? What happened to the stones? Why the x-ray and the CT scan in figures 1 and 2

SPECIFIC COMMENTS TO AUTHORS

Good case with good outcome. Does the authors have the image of the Retrograde pyelogram done at the time of stent placement --- would be interesting to look at how this got missed at initial stent placement.
