<b>Peer-reviewer statements</b>	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous Conflicts-of-Interest: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

## SPECIFIC COMMENTS TO AUTHORS

This is a well written paper. However in the discussion section it should be further discussed the incidence , the presentation and the prognosis of lymphoma in these patients. It should also be discussed whether there was an association of EBV with lymphoma, what would be the suggested treatment for lymphoma, and the survival rate in case of response to treatment. It should also be discussed whether there is an association of the genotype type and the prognosis.

Dear Author, Good work! 1). Needs extensive improvement in language and grammar. Use 'grammarly' soft ware. It is free to use. 2). Divide the discussion in 3 parts. 1). Review about ataxia telangiectasia and majority of the readers wont be aware of this condition. 2). Review about prior published studies on hodgkin lymphoma with AT. 3). Give some take home message from this case report. I have uploaded a revised manuscript. Thank you, Reviewer.
