SPECIFIC COMMENTS TO AUTHORS

The title reflects the main subject of the manuscript and is very direct on the theme. The summary is adequate. It is a case report that is well described, with a good review of the literature and relevance in the aspect of originality. As the situation reported is rare, there is a fundamental interest in publicizing this result. The manuscript interprets the findings appropriately and appropriately, highlighting the main points in a concise, clear and logical manner. The figures are of good quality and adequately illustrate the content of the paper. The manuscript met the ethics requirements.
