#### **SPECIFIC COMMENTS TO AUTHORS**

Thank you for your nice work and successful diagnosis. 1. The pneumopericardium regressed in the patient after tube thoracostomy and the general condition of the patient recovered. In this case, what was the reason you needed to perform thoracoscopy? For what reason did you think pericardium rupture? 2. Pericardium repair was performed by thoracotomy, was the pericardium not repaired primarily, what was the reason for patch placement?
