

PEER-REVIEW REPORT

Name of journal: World Journal of Clinical Cases

Manuscript NO: 60358

Title: The impact of different stereoisomers of inositol on insulin sensitivity of gestational diabetes mellitus patients

Reviewer's code: 02857752

Position: Peer Reviewer

Academic degree: FRCPA, MD, PhD

Professional title: Associate Professor, Surgeon

Reviewer's Country/Territory: Japan

Author's Country/Territory: China

Manuscript submission date: 2020-10-27

Reviewer chosen by: AI Technique

Reviewer accepted review: 2020-10-27 09:54

Reviewer performed review: 2020-11-10 10:12

Review time: 14 Days

SPECIFIC COMMENTS TO AUTHORS

In this study, the authors discussed the impact of different stereoisomers of inositol on insulin sensitivity of gestational diabetes mellitus patients. The design of this study is very well, and the results are interesting. Comments: 1. A minor language editing is required. Some minor language polishing should be corrected. 2. Manuscript should be edited according to the journal's guidelines. Results are discussed with updated references. However, a conclusion is needed. 3. Data in tables are very good. Please edit the tables carefully. 4. The data in the two figures are same with which in the table 4. Please delete the figures.

SPECIFIC COMMENTS TO AUTHORS

The purpose of this study is to explore new treatment methods that can reduce insulin resistance in patients with gestational diabetes mellitus. This study is interesting. The reviewer has some minor comments: 1. The manuscript requires a carefully editing. Please check the abbreviations in the text, and some Chinese punctuations should be changed. 2. The IRB statement should be included in the manuscript. 3. The two figures are redundant, I suggest to remove them.
