

## PEER-REVIEW REPORT

**Name of journal:** World Journal of Meta-Analysis

**Manuscript NO:** 55078

**Title:** Thrombopoietin-Receptor Agonists in Clinical Practice Settings

**Reviewer's code:** 02997291

**Position:** Peer Reviewer

**Academic degree:** MD, PhD

**Professional title:** Associate Research Scientist, Senior Scientist

**Reviewer's Country/Territory:** Italy

**Author's Country/Territory:** United States

**Manuscript submission date:** 2020-03-02

**Reviewer chosen by:** Jie Wang

**Reviewer accepted review:** 2020-03-19 07:41

**Reviewer performed review:** 2020-03-19 12:31

**Review time:** 4 Hours

<b>Scientific quality</b>	<input type="checkbox"/> Grade A: Excellent <input type="checkbox"/> Grade B: Very good <input type="checkbox"/> Grade C: Good <input checked="" type="checkbox"/> Grade D: Fair <input type="checkbox"/> Grade E: Do not publish
<b>Language quality</b>	<input type="checkbox"/> Grade A: Priority publishing <input checked="" type="checkbox"/> Grade B: Minor language polishing <input type="checkbox"/> Grade C: A great deal of language polishing <input type="checkbox"/> Grade D: Rejection
<b>Conclusion</b>	<input type="checkbox"/> Accept (High priority) <input type="checkbox"/> Accept (General priority) <input checked="" type="checkbox"/> Minor revision <input type="checkbox"/> Major revision <input type="checkbox"/> Rejection
<b>Re-review</b>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>Peer-reviewer statements</b>	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous Conflicts-of-Interest: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

#### **SPECIFIC COMMENTS TO AUTHORS**

Authors should focus more precise to the relevant complications of thrombotic effects of the portal venous system

#### **SPECIFIC COMMENTS TO AUTHORS**

This study clarified the use of TPO-RAs in the perioperative setting in patients with thrombocytopenia and CLD, associated supporting clinical trials including the efficacy and safety data, and their use with respect to platelet transfusions. The paper offers an interesting analysis and has clinical value. There are some questions: 1. The title is too broad, which can not reflect the main subject of the manuscript. Did this paper focus on the application of TPO-RAs in patients with CLD with thrombocytopenia? The authors should address more details about CLD accompany with thrombocytopenia. 2. The legend of figure 1 should be added.
