| <input type="checkbox"/> Grade E (Poor) | | <input type="checkbox"/> No records | <input type="checkbox"/> Major revision |

COMMENTS

COMMENTS TO AUTHORS:

Very well written review, extremely clear and self-explanatory.; most concepts are immediately available to the readers and many biological concerns are summarized in few sentences and tables.

COMMENTS

COMMENTS TO AUTHORS:

This review is well described and quite interesting. The paper will be helpful for pediatricians to understand the etiology of autoimmune hepatitis in children.
